Art Unit: 1713

The paper no. 13 (8-12-02) is nonresponsive since only ⁰some of items recited below were identified and designated specie(s).

This application contains claims directed to the following patentably distinct species of the claimed invention: [See the pages 37-43, 13-17, etc.] selection of specie must cover the full scope of claim by covering all elements or parts of claimed composition, e.g., the functional groups, precursor groups, ethylenic unsaturated monomer, the nonaddition polyanionic polymer, the final product.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, (s) as presented are generic.

A telephone call was made to A. Jackson on Nov. 1, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the applicant. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

The claims 1 and 7 appear to ^be redundant 35 U.S.C. 112.
